Her Engineers Are Not Citizens of This Country.

Hinted that More Than a Cracked Crank-Pin Holds Her.

Treasury Department Communicates with Local Inspectors.

There is a possibility that the crack steamship Paris, of the American line, will not sail for Southampton to-morrow, as advertised. She will not, it is asserted by members of the Marine Engineers' Association, be allowed leave her pier unless the places of the ns now employed to her engine-rooms are zed American engineers.

It is hinted that an attempt will be made ne United States Court this afternoon or morrow morning to enjoin the Customlouse authorities from issuing clearance apers to the Paris, so as to prevent her from eaving the harbor.

t her departure was delayed by the timely n. That has been repaired and her agents ve announced that she will be ready to pu sea to-morrow afternoon at 3 o'clock.

Engineers' Association has since dis-d. so its members claim, that the inter-

act granting American registry to the anips of the Company.

One of the provisions of that act requires that all the ships of the Company shall be officered by American citizens, and the point which has been raised by the Engineers American the courts, is just this: Is not the engineer of a steamship an officer of the same?

The officers of the international steamship Company are, it is said, inclined to dispute this point, although at the officer of the Company in this city this morning no one could be found who was willing to discuss the subject.

Paris to-morrow.

No application for an injunction to revent the saling of the steamship had been many in the United States Court up to the noon

len engineers.
Lawyer George W. Dease, counsel for the arine Engineers' Association, said this fternoon that his impression was that the sal reason for the delay in the sailing of the aris was not because of the alleged crack in the crack pin, but was occasioned by the irrespondence between the Treasury De-

correspondence between the Treasury Department at Washington and the local steamboat inspectors as to whether the new American ship had alten officers aboard.

"The damaged crank pin could have been repaired in a day," continued Mr. Dease.

"It only required the substitution of another one, which every machinist knows is not such a remarkable feat of engineering."

Mr. Dease said that the only thing that stood in the way of his obtaining the injunction from the United States Courts was that in asking for it an injury to some person must be shown upon which could be founded a bill in equity. If he could get over that, he thought there would be no trouble in restaining the Paris from sailing with the silen engineers on board.

slies engineers on board.

He has, he said, sent an opinion to Wash-ington which exhausted the law on the subington which exhausted the law on the subject.

It is quite probable that this is the true
reason for the Paris being tied up at her dock
so long after her sailing day.

"I have written to Collector Hendricks,"
concluded Mr. Dease, that the Paris is not entitled to clearance papers under the law, and
I am going to see shipping commissioner
keed, this afternoon on the same subject."
Manager E. F. Wright, of the American
line, said this arternoon that is his opinion
no judge could be found who would take the
responsibility of issuing such an injunction,
because of the jeopardy in which the lives of
the passengers would be placed if new engineers were given charge of the machinery of
the Paris.

engineer to become thurbughing acquired with his engines.

D. F. Pheips and Webster Elmes, of the Custom-House law department, agreed that such a step on the part of the Engineers' Association might be possible.

They said that although the Paris was regularly cleared on Friday last, there might be circumstances which would allow of the injunction being served.

They were not, however, prepared to give an opicion on the subject. The fact that the pioion on the subject. The fact that the is had cleared would not interfere with an injunction being effective.

CHAMPION DIXON IN COURT.

His Boxing Exhibitions May Be Stopped-The Case Goes Over. Champton George Dixon, the feather O'Rourke, appeared in Jefferson Mar ket Police Court this morning in answer to a summons issued by Justice Grady, at the request of Police Capt. Schultz, who objects to the boxing con

tests which take place nightly in Mi-ner's Eighth Avenue Theatre.

Although several contests were to lave taken place last evening Capt. Schultz interfered and notified Manager Miner that he would not allow the boxing under any circumstances, in his precinct. precinct.

These contests have been going on for a long time, and the Captain has finally decided to try and put a stop to them.
Justice Grady postponed the examination in the case until to-morrow.

Manager Miner was also in court, and
this action was taken after Mr. Miner
and the Justice had a long consultation
behind closed doors.

THERE'S A SHOCK to your system, with the usual pill. And there's weakness afterward, and caused by it. How can you expect any lasting benefit from such things!

The nearest to Nature's own way is with Doctor Pierce's Pleasant Pellets. In every derangement of the liver, stomach and bow-als—Sick and Bilious Headaches, Constipation, Indigestion, Bilious Attacks—they premptly relieve and permanently gure. No disturbance, no griping, no reaction afterward. They regulate the system perfectly—one tiny, sugar-coated Pellet is a gentle laxative or corrective—three for a cathartic. three for a cathartic.

They're the smallest, the easiest to take

and the cheapest pill you can buy, for they're guaranteed to give satisfaction or your money is returned. Buy of reliable dealers. With tricky ones, something else that pays them bet-ter will be offered as "just as good."
